- Interface language English, Hungarian, Slovenian
- Does it have a built-in repository where we can browse content created by other teachers? yes
- Does the free version support online cooperation? yes
- Difficulty For beginners
- Author Hegedüs Helén
- Download PDF [PDF](#)

Description

Sway is a Microsoft Office application that makes it easy to create and share interactive reports and presentations, among other things. No need to work with pre-designed templates, our work will be unique.

Using Sway, you can even make a simple and perhaps boring PowerPoint presentation more colourful, interactive and interesting. The application is free to use for anyone having a Microsoft account.
